

THE HIDDEN HAVEN OF TIGER SHARKS

**FUVAHMULAH
SCUBA CLUB**

FUVAHMULAH ISLAND

The mysterious island, near which 7 species of sharks live, is a tourist mecca for all divers in the world. The only place in the world where you can see tiger and whale sharks all year round. The island is known for incredible diving, fishing and magical beaches.

ISLAND FEATURES

Fuvahmulah is one of the most beautiful and picturesque islands in the Maldives. It is the third largest atoll island in the Maldives. Nature has generously endowed him with beauties: tropical forests, swamps, snow-white sandy beaches. In addition, the fantastic white pebble beach is included in the top ten unique beaches in the world. Moreover, this is the only island in the Maldives where you can meet freshwater lakes.

Almost all the islands of the Maldivian archipelago are coral reefs. But Fuvahmulah is an island of volcanic origin. It looks more like the neighboring islands of Bali. It features lush tropical vegetation, mango gardens, papaya plantations and incredible flowers.

- The Mysterious Island is one of the best shark diving spots on earth. Living reefs and corals did not die from the warm currents, because the island is in the open ocean. The reef remained alive and untouched.
- This is a budget holiday option in the Maldives, because Fuvahmulah is a local island, not a fashionable one. It only opened for tourism in 2016.
- The biosphere reserve covers an area of about 1,300 hectares. It is the only administrative atoll and island in the country. It boasts a variety of coral ecosystems and sandy beaches. It is unique for its only island with a bowl shape. Has a huge variety of corals, mangroves, wetlands, and the reef system is home to a large population of sharks, mainly tiger, whale and hammerhead sharks.
- The reef is home to over 1200 species of fish. Birds also love the island: there are about 200 species of them!
- Fresh lakes are surrounded by swamps, which are covered with thick layers of peat and mud. Coconut palms, trees and shrubs grow around.
- There are no lagoons on the island, so it is subject to strong waves. Because of this, the famous pebble beach appeared, which extends from the northern point of the island. Unique white glittering pebbles are not found in any other corner of the Maldives.

DIVING IN FUVAHMULAH

It is for diving to the distant island of Fuvahmulah those tourists from all over the world flock. The underwater world around the island is rich: 7 species of rare sharks.

POPULAR PELAGIC LIFE'S IN FUVAHMULAH.

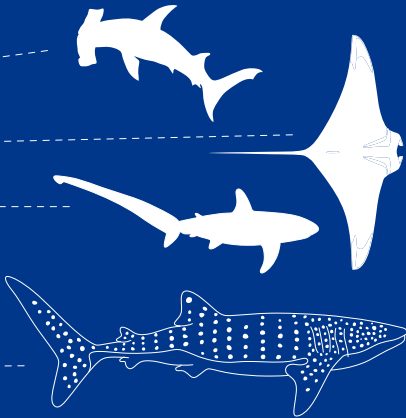

HAMMERHEAD SHARK

OCEANIC MANTA RAY

THRESHER SHARK

WHALE SHARK

SILVER TIP SHARK

- This is a place where you can see the rarest underwater inhabitants together in their natural environment. 7 sharks in one dive: hammerhead shark, fox shark, tiger shark, gray-white shark, reef shark and long-winged shark. In addition, tiger sharks can be seen every day. Humpback whales and many exotic fish come to the island
- This is the only place on the planet where you can see all the majestic marine predators all year round. When diving, you never know whom you will meet in the underwater world: it is always a surprise. Nevertheless, to see as much as possible, you have to get lucky with the tide. Moreover, in the rainy season, waves come.
- The main attraction for diving enthusiasts is the Tiger's Point dive site. This is a whole tiger shark nursery! Fuvahmulah Island is the best way to swim with tiger sharks. Their population is estimated at up to 500 specimens. They are found all year round. The meeting point depends on the season. There is a diving center on the island that studies tiger sharks. You can not only be acquainted with the underwater beauty, but also give the shark your name. On the island, you can feed tiger sharks under the protection of local and guides.
- Divers also go to see a rare phenomenon: a huge pregnant whale shark. These are often found in the waters here.
- One of the largest oceanic manta ray populations on Earth is located just off the island. They almost always live in the open ocean. But using the unique landscape of the island, they swim up to it for reproduction. And in April they spend a whole month near the coast. At this time, many diving enthusiasts come here.

TIGER SHARK DIVING

The Tiger Shark Dive is one of the most popular dives in Fuvahmulah. The Tiger Sharks are found every season round the year, with divers being able to encounter them at 8-15 meters depth. This dive is for everyone, from novice to seasoned divers and snorkellers.

Tiger Shark Diving with us, you will be spoilt for choice as there are several locations around Fuvahmulah where we can take you diving with these amazing creatures. We prioritize safety and leisurely enjoyment, and our experienced team of guides will ensure you get the most out of your trip.

The Tiger Shark is a large species of requiem shark and is easily recognizable by its mottled grey coloration and tiger-like vertical bars. They have been known to grow up to 6 meters long and weigh over 1,000kg! They are usually found in tropical or sub-tropical waters throughout the world but have also been spotted in temperate waters.

Tiger sharks are generally solitary animals, but when food is plentiful, they may gather together in large groups called “shiver” aggregations, consisting of hundreds of individuals.

Fuvahmulah Scuba Club is a PADI 5 Star Dive Center, and it is located the heart of Fuvahmulah Island. Being in the middle of the island, everything seems to be close within few minutes of walking distance such as local shops, beach, sunset area and many more. We provide a cozy and safe environment for the divers to chill out at any time with our in-house restaurant that offers variety kind of food and beverages, ranging from local cuisine to western selection. The dive center is also equipped with complete diving facilities to support the divers' needs during their diving trips, so you should be worried-less when diving with us!

OUR JOURNEY

Since beginning of our operation in 2020, we started as a small team, and with support and demand from our beloved divers, we have expanded our team to bigger and stronger team that can support higher number of guests without jeopardizing the quality and safety throughout the dive trips. Apart from that, we are now recognized as PADI 5 Star Dive Center.

WHAT YOU SHOULD EXPECT FROM US

A team of professionals consist of experience dive instructor/dive master, boat captain and crews, friendly and attentive management team, also not to forget the support team from the kitchen that provide fresh and great meals during your stay.

THE TEAM

As a PADI 5 Star Dive Center, we provide various level of dive courses. The team consist of PADI Professional with years of experience in diving industry and many things to be shared during your stay. On top of that, our boat crews are from the local people of Fuvahmulah, which means they are the best when it comes to navigating on land as well as the ocean. Being multi-cultural dive center, our dive professional comes from different background and that makes the team more global and open hearted to everyone that choose us
